## Profile

---

Graduate international student currently pursuing a Masters' Degree in Property (Real Estate) at The University of Melbourne. I have a design & architecture and have worked as a Design Architect in different project typologies ranging from commercial shopping malls, supermarket stores, offices buildings and dwellings in different locations throughout Mexico and I've been involved in various design competitions. Currently looking for a company that allows me to effectively put my new skills into practice. I have a keen interest in real estate, business and innovation. I also have diverse software skills, as well as some experience developing websites and databases in FileMaker and Access.

## Education

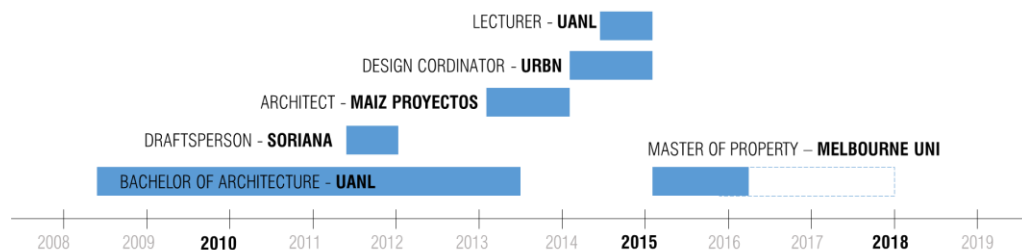

---

2015 - Present: Master of Property; The University of Melbourne; Melbourne, Victoria, Australia

2008 – 2013 (5 year): Bachelor in Architecture; Universidad Autonoma de Nuevo León; Nuevo Leon, México.
